

Opening a Interactive Brokers Demo account to Trade STIR Futures

It will be sad if we learn all about STIR futures but can't trade them on virtual money.

Fortunately for us, we can!

Interactive Brokers (IBKR) offers demo accounts that allow you to trade the BAX future.

I want to add that we are really lucky. It is hard to find free demo accounts that allows us to virtual trade a more obscure product like BAX. Moreover, IBKR is used by professional traders and small funds, so we are in rather good hands.

Sign up for a IBKR demo account

Here is a guide to sign up for a IBKR demo

account: <https://algotrading101.com/learn/interactive-brokers-paper-trading-demo/>

Spoiler: It is quite straight forward and just requires your email after you installed the platform.

Learn the basics of the IBKR platform

I shan't reinvent the wheel. To learn how to navigate the IBKR platform, check out this video: https://youtu.be/_SbYfTWbWcU?t=160
